TJM RECOVERY JACK

The TJM Recovery Jack is one of the most versatile items of recovery equipment. It provides a means of lifting the vehicle to aid recovery and fits directly into TJM's unique T-Slot recovery points featured on TJM Steel bullbars.

In emergency situations it can also be used to remove the vehicle from an impending obstacle by attaching a cable at each end and using it like a hand winch.

Working load limit: 1000kg (2200lb)

Height Raised: 1120mm (44 inches)

Height Lowered: 150mm (6 inches)

- › Fits directly into the TJM Bullbars unique T-Slot Recovery Points without the need of additional attachments
- › Cast column jacking mechanism
- › Unique rubber jack keeper
- › Comes with own recovery jack bag

DESC: **TJM RECOVERY JACK**
